Dear Steve:

You are the greatest! when you thought up the idea of Hot To Trot touring racetracks in North America. This is truly the greatest promotion for our sport because it is a harness racing promotion.

No elephants, buffalos, ostriches or bathing beauties. Just Vincent Silvestro and his beloved pacer going around the race track with a few (nearly 2,000) aerial bombs, sky rockets and sparklers and not just once but two or three times to be sure everybody got a good look. Let alone standing on the race bike with the reins in his mouth. **WHAT A SHOW!!**

What a guy to work with as well. Vincent was a tremendous interview on T.V. His knowledge of racing comes across to again making this a truly harness racing promotion. After the show he signed autographs until everyone was taken care of.

His rapport with the fans young and old was superb.

Steve you are no longer the greatest, that title now belongs to Vincent Silvestro and Hot To Trot.!

Sincerely,

Roger Huston
